I am a hard no to rate rider hike YEC is wanting to implement. Our bills have just doubled in the past few months and my pay did not. I can not afford the hike and eat too. How can they get away with this crap? There are hundreds of new houses with electric heat paying ridiculous power bill but yet I gotta pay for that too. and if they don't get their way for May they are hiking it higher for July.. this is robbery really.
