Hello,

Im not sure what to put in this letter. As atco already charges us an unsustainable amount a month, I oppose their application and ask that it be denied. Along with others in the Yukon, we are struggling and keeping our children warm shouldn't break the bank. Our power is already doubled over the last few months. With winter being here, it is absolutely unsustainable. We shouldn't have to cut our grocery budget to feed the kids because our power bill is outrageous. It is pure greed of atco to be asking this. Please really think of the people struggling to make ends meet. The middle class who aren't eligible for help but don't make enough to cover all expenses with the increase of all essential needs. Think of the Yukoners and not a greedy company.

Thanks!

Lucille.
