---

Good morning,

I want to say that I'm in disagreement with another increase. The reasoning behind this proposal is a shortfall but what about the over earnings that ATCO has been making since 2016? How is that considered when decisions for increases are made? That money has certainly not made its way back to Yukoners. Allowing another increase to offset the "cost" to produce energy is just adding another financial burden to Yukon households.

Thank you,  
Mara
