Yukon Utilities Board  
Box 31728  
Whitehorse, YT Y1A 6L3

**Attention: Ms. Deana Lemke, Executive Secretary**

Dear Madam:

**Re: Yukon Energy Corporation (YEC)  
Electricity Purchase Agreement (EPA) with Tlingit Homeland Energy**

---

Pursuant to Board Order 2022-01, The City of Whitehorse (“City”) is writing to register as an intervener in the proceeding for YEC’s EPA with Tlingit Homeland Energy.

In the Board Order, the Board advised that the Minister wanted to review the following issues:

- (a) The public need for the agreement under various reasonable electric load forecasts;
- (b) The effect of the proposed commitments on the rates of customers and the reliability of electricity service provided to customers;
- (c) The capability of existing and currently committed and expected generation and transmission facilities including thermal generation facilities to provide reliable electric power generation to meet the forecast load requirements in subparagraph (a), and the effect the EPA would have on this capability;
- (d) The risks associated with the agreement, including its potential impacts on YEC and rates for customers and on the reliability of electricity service provide to customers;
- (e) Evidence that all reasonable alternative options have been considered, and that proposed spending commitments have been selected on reasonable grounds; and
- (f) Whether it would be prudent to enter into the EPA as proposed at this time.

As a ratepayer and the representative of utility ratepayers within the City, the City has an interest in examining and evaluating the application with respect to these issues before the Board and participating in the proceeding to the level commensurate with the results of its review.

Any communication with respect to this matter should be sent to the below individuals:
