**Re: Yukon Energy Corporation - EPA  
UCG Registration as Intervenor**

Dear Ms. Lemke and Board Members:

The Yukon Utilities Consumers' Group (UCG) would like to register as an intervenor in the proceeding to review the YEC/Atlin Tlingit EPA submitted by Yukon Energy Corporation (YEC). We plan to participate in all aspects of this rate hearing.

The nature of UCG's participation in this proceeding is to protect the interests of residential and small business consumers of electricity in the Yukon from rate impacts resulting from this EPA. Of particular concern is that guarantees will be in place to ensure no costs for construction of these projects, i.e. Hydro facility and transmission line construction and upgrading will be charged back to Yukon ratepayers in future revenue requirement or rate base. We are also concerned about other possible costs that have not been fully explained, i.e. legal and consultant cost.

UCG is particularly interested in more fully understanding when and how ratepayers will be impacted, both short and long term effects of this proposal.

UCG has retained the services of Roger Rondeau as a regulatory consultant for this proceeding given his past experience in YUB proceedings including many previous general rate applications by both ATCO Electric Yukon and YEC.

Until more information is provided through the information request process, it is too early to tell whether UCG will need to submit additional evidence to be placed on the record.

All communications related to this application and its review should be copied to myself ([rroudeau@northwestel.net](mailto:rroudeau@northwestel.net)).

Regards,

Roger Rondeau
